

DirectTV

Model H20/Model HR20

HR21 & above , H21 & above, or
R22

You are able to receive over-the-air (antenna) broadcasts with the addition of DirectTV's AM21 Off-Air Tuner. This tuner will allow you to watch and record over-the-air programming from your DirectTV onscreen guide.

You can connect an over-the-air antenna directly to your DirectTV receiver and begin watching WNEP2 directly from your onscreen guide! WNEP2 will be listed as channel 16-2 in your onscreen guide. Refer to your receiver's manual or contact DirectTV for detailed setup instructions.

Dish Network

Dish 811 HDR/Solo DVR
ViP 612/Solo ViP 211k/Duo
DVR 625/Solo DVR ViP
722k

Other Dish Network Models

Contact Dish Network to see if
your receiver is over-the-air
capable.

You can connect an over-the-air antenna directly to your Dish Network receiver and begin watching WNEP2 directly from your onscreen guide!
